RE: Alliance Water Resources Agreement

Issues

The City's wastewater plant is operated on a day-to-day basis by Alliance Water Resources, based in Columbia, Missouri. Each year, Alliance Water Resources submits a proposed agreement to the City that coincides with the City's fiscal year, except that the Alliance agreement runs from October 15th to October 14th each year. The proposed annual fee for contract operations for the 2012-2013 fiscal year for the wastewater plant is $368,445. This is an increase from last year of approximately 2.31%. They have projected increases in lab testing, lab supplies, maintenance supplies and fuel costs as shown on the attached document. I asked Alliance what the cost would be to take on additional work, related to grease interceptor inspections at food service establishments. They propose doing this work at no additional cost if the City would consider extending their agreement to five-year terms.

The City receives refunds from Alliance in the event actual repair expenses are less than budgeted expenses, so the operational fee may end up less than what is shown in the budget. The repair limit is proposed at $26,500, which is same as the current year.

Recommendation

Staff recommends that the agreement with Alliance be approved on two readings.
