RESOLUTION 2014-12

Agenda Item

TO: Mayor and City Council

FROM: Mark S. Gaugh, City Manager

DATE: April 21, 2014

RE: Water Plant Residuals Removal

Issues

During the water treatment process, coagulants and cationic polymers are used to settle out particulate matter in the primary phase of treatment. This material is stored in two holding basins and removed every 1-2 years. The two basins are nearly full, so we budgeted to have them cleaned this fiscal year. The material must be land-applied, according to State of Missouri Department of Natural Resources regulations. The lowest bidder was significantly lower than other two bidders, and Henke Applications, LLC was awarded the bid to remove the residuals last year. The job went very well.

The bid will cover the next five years, but with the exception of increases for fuel expense. We can treat the bid as if it is on an annual basis, however, since the fuel costs can be very volatile.

Recommendation

Staff recommends that the bid from Anthony Henke be accepted for sludge removal at a bid price of $18,201.60, and reviewed annually prior to approval.

Resolution 2014-12

A RESOLUTION TO ACCEPT A BID FOR WATER PLANT RESIDUALS REMOVAL FOR THE CITY OF CAMERON, CLINTON AND DeKALB COUNTIES, MISSOURI

WHEREAS, the City of Cameron's Water Treatment Plant creates a residual material as part of the water treatment process; and

WHEREAS, bid advertisement was completed to obtain competitive bids among potential vendors; and

WHEREAS, the lowest bid received was from Anthony Henke, Princeton, Missouri.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and City Council for the City of Cameron, Clinton and DeKalb Counties, Missouri as follows:

Section 1. The Council hereby approves a bid of $18,201.60 from Anthony Henke.

Section 2. The City Manager is authorized to sign ancillary documents to effect the transaction and any necessary change orders within the guidelines of the purchasing policy and budget.

Passed and approved this 21st day of April 2014.

_____
Mayor Dennis M. Clark
