RE: Electric Rate Ordinance

Issues

Current power supply for the City of Cameron is supplied by Platte-Clay Electric Cooperative through a full service contract. The original contract dated August 8, 1957 has provisions for the general rate structure to be amended. We have been notified by Platte-Clay our electric rate will increase in May of this year.

The increase is minimal, but it is staff's belief the additional costs need to be passed on to our customers. This is a direct and quantifiable increase to our operating costs. The increase to our rates is necessary to maintain a healthy reserve balance for the electric department. This is increasingly important with the potential need for an additional substation and infrastructure.

This proposed electric rate adjustment will impact the average Cameron residential user (900 kW) by an additional $1.49 per month. Small commercial users (3,000 kW) will see an increase of $4.31 and large commercial and industrial users will see a minimal increase as well.

Recommendation

Staff recommends that Council approve the new electric use rate ordinance. Three readings are recommended and will allow for rate to become effective on June 1, 2016.

Bill 2016-20

AN ORDINANCE FOR THE CITY OF CAMERON, CLINTON AND DeKALB COUNTIES, MISSOURI REPEALING THE CURRENT ELECTRIC RATES AND ESTABLISHING NEW ELECTRIC RATES FOR CONSUMERS OF THE CAMERON MUNICIPAL UTILITIES
