RE: Alliance Water Resources Agreement

Purpose

The City's wastewater plant is operated on a day-to-day basis by Alliance Water Resources, based in Columbia, Missouri. Each year, Alliance Water Resources submits a proposed agreement to the City that will begin on October 15th and end the following year on October 14th. The proposed annual fee for contract operations for the 2017-2018 fiscal year for the wastewater treatment plant is $408,417. This is an increase from last year's agreement of 2.0%. Increases to maintenance and supply costs, as well as increases in salaries account for the majority of the necessary increase.

Included in the contract price is $26,950 for various maintenance and repair items. Any money left in these line items at the end of the contract year, will be refunded to the City.

Recommendation

Staff recommends the following ordinance be passed and approved authorizing the proposed agreement with Alliance Water Resources. The full proposed contract amount was taken into consideration when preparing the 2017-18 Budget.
