Re: EMS Dispatching Fees and Contract Renewal

Issue:
In years past, the Cameron Police Department and the Cameron Ambulance District have entered into a contract for emergency medical dispatching services on an annual basis. The fees have been based on a percentage of time and ratio of calls for service annually for both entities. The average annual cost, for the last three years, for dispatching the Cameron Ambulance District has been $42,000 and the annual calls for service the last three years have averaged 2,148.

The Cameron Ambulance District and the Cameron Police Department will still conduct an annual review in January of each year. If there have been no significant changes (less than 10% increase or decrease) in the volume of calls for service then the contract will not be presented to the City Council or Cameron Ambulance Board of Directors for adjustment and will remain valid.

At the end of the three years, if there have been no previous contract revisions and extensions, a financial expense and call for service review will be conducted by both entities to review the existing contract. A new contract will be developed and presented to the City Council and the Cameron Ambulance District Board of Directors for review and approval.

Recommendation:
Review and approve the three-year fee schedule for dispatching emergency medical service calls for the Cameron Ambulance District. Enter into a three-year contract, which is subject to review by either party at any time, with the Cameron Ambulance District for dispatching EMS calls for service.
