RE: **Transystems Agreement for Street Sign Inventory**

PURPOSE

The attached bill would authorize the City Manager to enter into an agreement with Transystems Corporation for updating our street sign inventory and training.

DISCUSSION & FINANCING

We were successful in obtaining a TEAP grant for street sign inventory update and training. This project has a deadline of completion by June 30, 2015, so we are submitting the consultant agreement concurrently with Missouri Highway and Transportation Agreement for the funding. Transystems is one of the consultants on MoDot's pre-approved list for this type of project and the agreement has been reviewed and approved by MoDot.

The project involves checking every street sign to ensure it is accurately reflected in our inventory and training for each employee in the Street Department on how to keep the inventory up to date as new signs are added or replaced. This process involves GPS locating each sign and recording information about the sign and the pole in our GIS system.

Our total grant funding for this project is $4,840 with a match of $1,210 for a total project cost of $6,050.

RECOMMENDATION

We are recommending the Council adopt the attached bill authorizing the City Manager to enter into the agreement with Transystems for the street sign inventory.
