AGENDA ITEM

RE: **Missouri Highways and Transportation Commission Transportation Enhancement Funds Program Supplemental Agreement No. 2 for pedestrian access on North Walnut and US 36 overpass**

PURPOSE

The attached bill would authorize the City Manager to execute a second Supplemental Agreement with the Missouri Highways and Transportation Committee to revise the original agreements for construction of pedestrian improvements on North Walnut Street and the US 36 overpass.

DISCUSSION & FINANCING

The Missouri Highways and Transportation Committee and City initially entered into two agreements in April of 2013, and the first supplemental agreement in October of 2014. The first agreement is for the construction of a five-foot wide sidewalk from Grand Avenue north to the US 36 overpass. The second is for the construction of a cantilever pedestrian access at the US 36 bridge overpass. Both of these projects utilize Transportation Enhancement funds we received through two separate competitive grants.

While working through the review process, MoDOT requested additional design work and review time. This additional review took longer than anticipated. The Project Schedules are updated to reflect this change in schedule. MoDOT requires us to execute a supplemental agreement with City Ordinance to accept this change.

RECOMMENDATION

We are recommending the Council adopt the attached bill authorizing the City Manager to sign the Transportation Enhancement Funds Program Supplemental Agreements with the Missouri Highways and Transportation Commission.
