RE: Liquor License Application

Issues

The Aiden McVicker Foundation and the Cameron Chamber of Commerce are sponsoring a fundraiser called Crossroads Crush September 26th in the public right of way surrounding McCorkle Park. An ordinance is in place allowing the consumption of alcohol for this event at this location. Grindstone Valley Winery and Of the Earth Farm Distillery, LLC have both applied for a Caterer Permit for the event. They have submitted applications for the Caterer Liquor License for this event. As always, the City license is only good in conjunction with the proper state liquor control license which they have both already provided.

Recommendation

Staff has determined that both applications meets all City requirements.
