RE: Liquor License Application

Issues

The Aiden McVicker Foundation and the Cameron Chamber of Commerce are sponsoring a fundraiser called Crossroads Crush September 26th in the public right of way surrounding McCorkle Park. An ordinance is in place allowing the consumption of alcohol for this event at this location. Windy Wine applied for a Caterer Permit for the event. They have submitted application for the Caterer Liquor License for this event. As always, the City license is only good in conjunction with the proper state liquor control license which they have already provided.

There is a possibility two (2) more vendors will apply for Caterer Permits to participate in the Crossroad Crush Festival as well. Fence Stile Vineyards and Winery; and, Weston Brewing Company are contemplating getting licenses.

Recommendation

Staff has determined that the Windy Wine application meets all City requirements and recommends approval.

Staff also asks Council consideration for contingent Caterer Permit license approvals for Fence Style Vineyards and Winery; and, Weston Brewing Company as long as the application, fee and a copy of their current State of Missouri Liquor License is presented before the September 26, 2015 event.
