Re: Manager's Report

Dangerous/Blighted Structures – We are working on the two commercial structures, as well as getting ready to make our next list of house demolitions.

Discussion of Cornhill/Walnut Drainage – We will provide some information regarding the storm water drainage on Walnut at Cornhill.

L.E.D. Street Lighting – As part of our lighting evaluation, we are looking at increasing the technology to a wireless platform that will have multiple uses. However, we do not yet know whether this is something that will be cost-effective. Since we are replacing some of the heads, now is the time to at least look at the technology.

Street Repairs – The contractor (Herzog) has completed asphalt work on Kristen/Lea, Lover's Lane and Little Brick. They also did some section replacement on Griffin Rd. Rosewood Ct. curbs have been completed and the contractor had to do additional base restoration there. It is ready for the final lift of asphalt surface.

Sunshine Law Training – We are currently planning to conduct Sunshine Law training for our Council, boards and commissions on Thursday, December 10th at 6:00 p.m. The location will be the Washington Street Restaurant. Gary Markenson will be conducting the training.
