RE: Aviation Project Consultant Agreement, H. W. Lochner Inc

BACKGROUND

This is an agreement with engineering firm H. W. Lochner, Inc, for professional services at the Cameron Memorial Airport related to engineering services associated with the design of an AWOS system. AWOS stands for Automated Weather Observation Service (or Station). We have gone through the official request for qualifications process for engineering services for avaiation in the recent past and were approved by MoDot to utilize Lochner. Additionally, MoDOT has reviewed and approved this agreement with Lochner.

AWOS is important for pilots to obtain weather information specific to our airport. For example, St. Joseph could be experiencing cloudy low visibility conditions, while our runways are clear. This allows pilots access to that data and our airport when it is needed. We are also in better position to serve as an alternate landing airport when needed.

FUNDING

The total cost of the agreement is $50,450, and is included in our current approved Airport Layout Plan. We did receive Non-Primary Entitlement Grant funds we will utilize to fund the project. The funds require a 10 % match.

Staff recommends approving the contract on full reading and proceeding with the design.
