Re: Manager's Report

Dangerous Structures - Our contractor for this year's group of dangerous structures is on the job and has started working on the list of demolitions. These are all residential structures. On the commercial side, staff is working on taking enforcement action on at least one structure where the owner is not responding to our requests for information. We are working with the owners of an old foundation to get it removed, as well. The Council expressed interest in getting this eyesore removed, and the project has been in the court process for quite some time. The old Furniture Depot has been removed, as you know, and the ground needs to be seeded, along with the completion of the previously attached building. It still needs to be sealed up.

Dispatching Services - DeKalb County Sheriff Andy Clark and the DeKalb County Commissioners have reached out to the Cameron Police Department asking for us to dispatch for their agency. The request is to dispatch during the evening, weekends, and Holidays. They would do their own dispatching during the day, M-F. We have had two meetings and currently we are checking to see if this can be done and looking into the cost for this project.

Economic Development Report by Rumery & Associates – Report is given at the Council meeting, usually on a monthly basis.
