Re: Manager's Report

Holidays – It was about this time last year, where we added to our holiday lighting inventory. If Council wants to look anything additional for this year, we would like to get started on the ordering process.

Parks Department Open House – On Thursday, September 21, the Park Board held an Open House for visitors to view the results of the recently completed Parks Master Plan. There was a pretty good turnout for the event with a lot of questions relating to the Plan.

Dispatching Services – Next week, Rick and I plan to meet with representatives from DeKalb County, regarding continued discussions of the dispatch operation.

Economic Development Report by Rumery & Associates – Report is given at the Council meeting, usually on a monthly basis.

Work is progressing at the north travel center, as well as the other side of Highway 36, where new fuel pumps and expanded concrete parking are in construction. We have several other projects that are yet to get underway, and we are working with those developers at this time.
