RE: Amendment Request for Articles 4, 27, and 33 Cameron Zoning Ordinance

Issues

A request has been made by City Staff to amend the following zoning ordinances to provide better guidance and interpretation for staff. The following amendments will provide a clear definition of the codes, offer additional fence options, and allow more flexibility for permit duration.

The proposed amendments were presented before the Planning and Zoning Commission on November 13, 2017 for public hearing. The board supports the recommended changes and has authorized City Staff to proceed forward to City Council for approval.

Recommendation

Planning and Zoning along with City Staff fully support the recommended changes. The changes will provide better guidance in educating the public regarding city ordinances. In addition, the changes will provide builders, contractors, and property owners with options in completing their projects.
