BILL 2018-23 AND 2018-24

*****Second & Final*****

AGENDA ITEM

TO: Mayor and City Council

FROM: Drew Bontrager, Public Works Director

DATE: May 7, 2018

RE: **Public Right of Way & Drainage Easements Dedication – East Prospect Street Project**

PURPOSE

The attached bills, Bill 2018-23 and Bill 2018-24, authorize the City Manager to accept sections of privately owned property from various owners along East Prospect Street for permanent public right-of-way and for permanent drainage easements.

BACKGROUND

East Prospect Street is one of the projects identified for funding through the Transportation Improvement Tax. The project consists of re-constructing East Prospect Street between Walnut and Elm Streets, as well as the intersection of Locust and Prospect, the intersection of Orange and Prospect and the intersection of Mulberry and Prospect. The project will also include driveway, sidewalk, curb and gutter, asphalt pavement, and storm sewer construction the entire length of the improved roadway.

The right-of-way is not consistent throughout the project and requires acquisition of additional right-of-way for the improvements. Additionally, to improve drainage throughout the project permanent drainage easements for the improvements are required. All properties have been identified, described and signatures obtained from all property owners throughout the project. There are a total of five property owners for additional right-of-way and a total of three property owners for permanent drainage easements. All additional right-of-way and drainage easements are identified in the attached Exhibits.

RECOMMENDATION

Recommend the Council adopt the attached bill authorizing the City Manager to accept the property along E Prospect Street and dedicate as permanent public right-of-way and permanent drainage easements.
