RE: Animal Ordinance Revision for Article IV- Animals

Issues

The attached document is a revision of the current city codes found in Article IV- Animals of Chapter 5, Health and Sanitation. City Staff along with the Policy and Procedures Committee were tasked with reviewing Article IV- Animals. The purpose for the review was to update city codes to reflect the changes and demands from the citizens. The revision process involved adding or modifying language that is more relevant with today's population.

Background

The first reading of Bill 2018-27 passed with conditions that were to be updated within the Ordinance for the second reading. After public comments regarding these changes, it was decided to submit the Ordinance for second reading as originally submitted. Any changes to the Code can be reviewed and considered at a later date.

Recommendation

Staff recommends that City Council considers the suggested changes. These changes would allow for a more balanced animal ordinance within the City of Cameron.
