RE: Engineering Services Agreement with Bartlett & West for Ashland Drive Project

PURPOSE

The attached bill would authorize the Interim City Manager to execute an agreement with Bartlett & West for design services for infrastructure improvements on Ashland Drive, from 8th Street to Grand Avenue.

DISCUSSION & FINANCING

This project is on our Transportation Improvement project list and was discussed by Council for one of the next projects. The agreement includes the design of infrastructure improvements on Ashland Drive, from 8th Street to Grand Avenue. This will include adding storm sewer, curb and gutter, ADA compliant sidewalks, driveway aprons, slight alignment changes and the intersecting street of Harris Lane.

The completion of preliminary design is around five months, or January of 2019 and final design completion by fall of 2019 with anticipated construction during the 2020 season. Since we are further out on design, this agreement does not include construction observation services portion. The fee for services is a not to exceed amount of $149,933.00.

We are recommending the Council adopt the attached bill authorizing the Interim City Manager to sign the Agreement with the Bartlett & West for engineering services for infrastructure improvements on Ashland Drive.
