Subject: Manager's Report

Cameron CO-OP Elevator Association. I met Tuesday with Cody Sloan, the CO-OP manager and Lynn Rogers, board chairman, about their desire to expand their operation to the west. I also offered the option of moving to the business park. Tim will talk further with them about the property on Second Street and Zac will talk to them about the business park. I will let you know what develops.

Short Week. As we had a short week and a fifth week at that, we had few new actions to report.

Bad Weather. Fortunately we escaped most of the bad weather Tuesday. Both the Police Department and the Fire Department were stood up in the Emergency Operations Center and ready to respond, and I want to thank all of them. We had no reportable incidents, however, and they stood down about 10 PM.
