RE: **Missouri Highways and Transportation Commission STP-Urban Program Agreement Grand & Walnut Intersection Pedestrian Improvements**

PURPOSE

The attached bill authorizes the City Manager to execute an Agreement with the Missouri Highways and Transportation Committee to utilize grant funds to construct pedestrian improvements on the North Walnut and the Grand Avenue intersection.

DISCUSSION & FINANCING

The City has identified pedestrian access and safety along the Walnut corridor as a priority. In the past years, the City has completed a network of sidewalks from Evergreen north to Grand Avenue and from Grand Avenue north to Baldwin Road. However, the intersection of Grand Avenue remains unimproved. This project will complete the sidewalks on both the east and west side of Walnut, south of Grand Avenue, and intersection crossing on the south and east side of the intersection.

Funding for this project is through the STP-Urban grant funds. These entitlement funds expire and have to be obligated by September 30 of this year. We anticipate a total project cost of $211,086, with grant funds of $169,026 and a cash match of $42,257. The design work was completed by Transystems Engineering for these improvements when we did the N Walnut sidewalk and overpass project.

RECOMMENDATION

We are recommending the Council adopt the attached bill authorizing the City Manager to sign the STP-Urban Program Agreement Grand & Walnut Intersection Pedestrian Improvements with the Missouri Highways and Transportation Commission.

Bill 2019-27
