RESOLUTION 2019-15

TO: Mayor and City Council

FROM: Timothy Wymes, Community Development Director

DATE: June 3, 2019

RE: Animal Control Facility Building

Issues

City Staff would like council approval to study a new Animal Control Facility. City Staff along with Smart Architect & Design are currently working on a building design for a new animal facility. The projected cost of this facility will be around $600,000. In 2017, the original bid for a new animal facility was roughly $750,000 to construct a 2,400 square foot building. There are some factors present with the new design that will possibly reduce the cost to build a new Animal Control Facility of approximately 2,184 square feet. The proposed funding sources will be approximately as follows:

City of Cameron - $300,000
Private donation - $200,000
Friends of the Facility - $50,000
In-kind Services (City Labor) - $50,000

Recommendation

With the determining factors above, City Staff believes that a new Animal Control Facility is possible for the City of Cameron. Considering all the assistance from outside sources, City Staff would like to make a recommendation to City Council to move forward with planning for a new facility.
