City Manager Report

To: Mayor and City Council

From: Steve Rasmussen, City Manager

Date: December 16, 2019

Re: Manager's Report

Stewartsville City Council Meeting. I attended the Stewartsville City Council Meeting on Tuesday evening. The subject they wanted me to talk about was our $500,000 loan to the GNWWC. I assured them that this was between the City of Cameron and the Water Commission and that neither they nor the City of Maysville had any responsibility in making the loan or in paying it back. I expressed our appreciation for their commissioner to the water Commission, however, for supporting the Commission in this effort and told them that this would go a long way in moving the project forward. My comments were favorably received I think and there were no further questions for me.

Cameron Special Road District Meeting. I also attended the Cameron Special Road District Meeting at noon on Wednesday. I did this to get to know that board and to share items of mutual interest. We also discussed how the Road District and the City could work together when there are issues of mutual concern.
