RE: Electric Department Equipment Purchase

Purpose

The Electric Department has been planning the purchase of a new large bucket truck for several years now. Our existing 1995 large bucket truck has reached the end of its useful life and is questionable to pass dielectric testing. This year, we have budgeted money to purchase a new bucket truck. We have worked with the National Joint Powers Alliance (NJPA) to evaluate the lowest and best bids for this equipment. The Altec AM55 was selected and equipped with the necessary options at a price of $198,934. This unit will serve several purposes and is a vital tool for the Electric Department.

The replacement of our large bucket truck was discussed with the Utility Committee. It was the recommendation of the Committee to proceed and present the purchase resolution to the full Council.

Recommendation

Staff recommends the Council approve Altec's bid for an AM55 Overcenter Aerial Device for the bid price of $198,934. Funds for this purchase are in the FY20 Budget.
