City Manager Report

To: Mayor and City Council

From: Steve Rasmussen, City Manager

Date: March 16, 2020

Re: Manager's Report

City Council Goal Setting. Last year, the City held an off-site Goal Setting Session at the Elms on June 8, 2019. At that time, we discussed doing this on an annual basis after City elections. We are working to find a date that will work for the entire Council and would like to propose June 6 as a possible date now. Please let Shellie or me know your availability. We have checked with the Elms and they would have a room available then for us again. In preparation for that meeting, Staff will update Council on the status of our current Goals and Objectives program.

MML Regional Workshop. I want to remind everyone that the MML Regional Workshop for this quarter will be held here in Cameron. It will be at the Old School at 6:00 PM and the subject for the workshop will be "Nuisance and Derelict Properties." Our very own Padraic Corcoran will be the guest speaker.

Main Street, Inc. Report. The Main Street board is working hard to help improve our Downtown and to that end have prepared a report for the Council about how City Government can help their efforts. At your desks you will find a copy of this report.

February Financial Report. As we do every second meeting of the month, we have attached here the monthly financial report and a list of those bills over $15,000 that we have paid this month. You will note the large expenditure at the Airport. This is because we are paying for the recent painting of the hangers.
