City Manager Report

To: Mayor and City Council

From: Steve Rasmussen, City Manager

Date: July 20, 2020

Re: Manager's Report

Engineering Estimates. In light of recent differences between our project engineer estimates and actual project bids, we met with one of our primary engineering contractors. We worked out several understandings to try to minimize this in the future as well as to preclude unexpected discoveries resulting in significant change orders.

Curbside Recycling. Curbside recycling pickup will begin again on July 20. This will be done on a temporary basis by R&W and will be essentially revenue neutral in the short term because of savings incurred during the Covid-19 halting of pickup.

Goal Setting and Mission Statement. It is our intention to place the new Goals and Mission Statement resolutions on the August 3rd Council Agenda to correspond with the Public Hearing of the Budget. This will have given the Council a full opportunity to have reviewed them in light of the budget preparation and be comfortable with them.
