**Proposed Concept Plan of the Ball Complex with Master Plan**

Steve Rhoades went over what was included in phase 1 of the ball complex master plan. At the last meeting it was decided that phase 1 would have restrooms and a concession stand, it would also include two ball fields, walk ways, entry ways, and the parking lot would be able to hold 100 cars. He stated the budget for phase 1, as proposed, is around \$1.2 million to complete. This would leave approximately \$800,000 for land acquisition, mass earthwork, utility extension and design fees.

Steve Rhoades then invited the public to go to the two stations he had set up so that the public could give their input and give their own suggestions on what they would like to see in the ball complex.
