City Manager Report

To: Mayor and City Council

From: Steve Rasmussen, City Manager

Date: October 5, 2020

Re: Manager's Report

DeKalb County Commission. Staff Members of the GNWWC have met twice with the Dekalb County Commissioners concerning the pipeline through DeKalb County and will meet again with them this coming Tuesday. GNWWC is bringing them up to date on the project that is going through their County and working through a number of questions they have had. We will continue to keep Council updated on GNWWC progress.

Community Projects. Staff Members and I are meeting with the senior officials of the entities we are working with on Community Projects to get their input. These are going well and when we get the first round completed in a week or two, I will give you an update on the status of each.

Third Street. We are continuing to try to find a solution to the Third Street dangerous building situation. We have several options that we are pursuing and hope to have an answer short of demolition. In the meantime, all of the occupants have made plans to vacate the buildings.

Animal Care Facility. The Grand Opening of the new Animal Care Facility is still set for October 16th. As we get closer to the date, we will get out a more detailed schedule for this day, but for now please try to keep some time open mid-day for this event.
