RE: Liquor License Application

Issues

Labinot Rexha has applied for a 90 day temporary Resort Liquor License and a Sunday Liquor License. Mr. Rexha is planning to operate as "Napolis Italian Restaurant" at 512 N. Walnut Street. Once the 90 days have expired on the temporary license and documentation is provided that proves they meet all the criteria set forth in our Code regarding the sale of food versus the sale of alcohol, they will apply for a permanent license for the remainder of the 2010-2011 license year. At that time, the new application will come before you for approval. The Police Department has reviewed the application and has no objections.

As always, a City license is only good in conjunction with the proper state liquor control license and the county license.

I understand Napolis also operates in Sedalia, Maryville and St. Joseph. Mr. Rexha is planning to open September 1, 2010.

Recommendation

We need a motion and voice vote for approval to issue the Resort and Sunday Licenses.
