Re: EMS Dispatching Fees and Contract renewal

Issue:

In 2010 the Cameron Police Department and Cameron Ambulance District reviewed the current fee for dispatching of emergency medical services. The Cameron City Council and Cameron Ambulance District Board of Directors agreed, in February 2010, to a fee of $20,752.19 that would be evaluated in one year (February 2011).

A review of dispatching emergency services was conducted in January 2011 and it showed that the three year average for dispatching emergency medical services was approximately 8.58%. This is based on a quantitative representation of calls for service dispatched by the communications center.

However, the figures (7.15%) used are based on the 2010 calls for service only. This was used based on terms agreed upon by the City of Cameron and the Cameron Ambulance District during negotiations to purchase the Ambulance District's portion of the public safety building. A current cost analysis was conducted and it showed that the actual cost for dispatching the Cameron Ambulance District was approximately $20,653.49 annually.

This decreased figure is based on the increasing calls for service of the police department, fire department as well as staffing levels in the communications center. The Cameron Ambulance District Board of Directors reviewed this study at their February 14, 2011 board meeting and is in agreement.

Recommendation:
Review and approve the current costs of dispatching the Cameron Ambulance District. Enter into a one-year contract with the Cameron Ambulance District for dispatching EMS calls for service.
