RE: Easement from the State of Missouri

Issues

This ordinance is to accept an easement from the State of Missouri. Recently, the Missouri Veterans Home installed a generator that will operate the facility during extended power outages. This addition required the City to relocate a portion of the primary service to the facility. Since this service is on State property, an easement is necessary. This will allow the City access to operate and maintain the lines feeding the facility.

Recommendation

Staff recommends that the Council accept the easement from the State of Missouri.
